DETAILED ACTION

Allowable Subject Matter

1. Claims 156-174 allowed. Renumbered 1-19 respectively.

The following is an examiner's statement of reasons for allowance:

Regarding claims 156 and 168, the prior art of record, alone or in combination, does not disclose, among other features, the detailed interaction between an automated system, medical service provider, and a patient as recited in the claims. For example, testing the messaging transactions(0.1-0.8) of the medical system and responsively generating corresponding alerts for retrieval by alertable parties, wherein the alerts are designated as belonging to at least one category in a set of predefined categories(a.1-a.11) and further does not disclose collecting generated alerts that have not been deleted and determining the respective categories and presenting to a provider information indicating the category of the collected alerts.

Regarding claim 174, the prior art of record, alone or in combination, does not disclose, the detailed characterization of operations within a messaging system including operations (0.1)-(0.10) as recited, furthermore the prior art of record, does not teach automatically finding undeleted alert flags and automatically forwarding an alert signal if an assigned deadline of the undeleted flags has passed and automatically determined that a provider has not yet reviewed for-provider information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
